It has been proposed that people in Britain would be able to use a 'vaccine passport' in order to visit certain places and do certain things. A vaccine passport would be an electronic or paper document that would show whether an individual had been vaccinated against COVID19, recently tested negative or have natural immunity after being ill with COVID19.

Do you support or oppose the introduction of vaccine passports?

It has been proposed that people in Britain would be able to use a 'vaccine passport' in order to visit certain places and do certain things. A vaccine passport would be an electronic or paper document that would show whether an individual had been vaccinated against COVID19, recently tested negative or have natural immunity after being ill with COVID19.
